THE EDUCATION OF MAN (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Education of Man This work of Froebel admits us into his philosophy, and shows us the fundamental principles upon which he based the kindergarten system. His great word is inner connection. There must be an inner connection between the pupil s mind and the objects which he studies, and this shall determine what to study. There must be an inner connection in those objects among themselves which determines their succession and the order in which they are to be taken up in the course of instruction. Finally, there is an inner connection within the soul that unites the faculties of feeling, perception, phantasy, thought, and volition, and determines the law of their unfolding. Inner connection is in fact the law of development, the principle of evolution, and Froebel is the Educational Reformer who has done more than all the rest to make valid in education what the Germans call the developing method. Unlike Pestalozzi, Froebel was a philosopher. The great word of the former is immediate perception (anschauen). Pestalozzi struggled to make all education begin with immediate perception and abide with it for a long period.
